RULES OF PROCEDURE, JURISDICTION, AND SIZE OF THE SENATE COMMITTEE ON AGRICULTURE, NUTRITION, AND FORESTRY

(Excerpts from the Standing Rules for Conducting Business in the United States Senate [1])

RULE XVII

REFERENCE TO COMMITTEES; MOTIONS TO DISCHARGE; REPORTS OF COMMITTEES; AND HEARINGS AVAILABLE

1. Except as provided in paragraph 3, in any case in which a controversy arises as to the jurisdiction of any committee with respect to any proposed legislation, the question of jurisdiction shall be decided by the presiding officer, without debate, in favor of the committee which has jurisdiction over the subject matter which predominates in such proposed legislation; but such decision shall be subject to an appeal.

2. A motion simply to refer shall not be open to amendment, except to add instructions.

3. (a) Upon motion by both the majority leader or his designee and the minority leader or his designee, proposed legislation may be referred to two or more committees jointly or sequentially. Notice of such motion and the proposed legislation to which it relates shall be printed in the Congressional Record. The motion shall be privileged, but it shall not be in order until the Congressional Record in which the notice is printed has been available to Senators for at least twenty-four hours. No amendment to any such motion shall be in order except amendments to any instructions contained therein. Debate on any such motion, and all amendments thereto and debatable motions and appeals in connection therewith, shall be limited to not more than two hours, the time to be equally divided between, and controlled by, the majority leader and the minority leader or their designee.

(b) Proposed legislation which is referred to two or more committees jointly may be reported only by such committees jointly and only one report may accompany any proposed legislation so jointly reported.

(c) A motion to refer any proposed legislation to two or more committees sequentially shall specify the order of referral.

(d) Any motion under this paragraph may specify the portion or portions of proposed legislation to be considered by the committees, or any of them, to which such proposed legislation is referred, and such committees or committee shall be limited, in the consideration of such proposed legislation, to the portion or portions so specified.

(e) Any motion under this subparagraph may contain instructions with respect to the time allowed for consideration by the committees, or any of them, to which proposed legislation is referred and the discharge of such committees, or any of them, from further consideration of such proposed legislation.

4. (a) All reports of committees and motions to discharge a committee from the consideration of a subject, and all subjects from which a committee shall be discharged, shall lie over one day for consideration, unless by unanimous consent the Senate shall otherwise direct.

(b) Whenever any committee (except the Committee on Appropriations) has reported any measure, by action taken in conformity with the requirements of paragraph 7 of rule XXVI, no point of order shall lie with respect to that measure on the ground that hearings upon that measure by the committee were not conducted in accordance with the provisions of paragraph 4 of rule XXVI.

5. Any measure or matter reported by any standing committee shall not be considered in the Senate unless the report of that committee upon that measure or matter has been available to Members for at least three calendar days (excluding Saturdays, Sundays, and legal holidays) prior to the consideration of that measure or matter. If hearings have been held on any such measure or matter so reported, the committee reporting the measure or matter shall make every reasonable effort to have such hearings printed and available for distribution to the Members of the Senate prior to the consideration of such measure or matter in the Senate. This paragraph—

(1) may be waived by joint agreement of the majority leader and the minority leader of the Senate; and

(2) shall not apply to—

(A) any measure for the declaration of war, or the declaration of a national emergency, by the Congress, and

(B) any executive decision, determination, or action which would become, or continue to be, effective unless disapproved or otherwise invalidated by one or both Houses of Congress.

* * * * *

RULE XXV

STANDING COMMITTEES

1. The following standing committees shall be appointed at the commencement of each Congress, and shall continue and have the power to act until their successors are appointed, with leave to report by bill or otherwise on matters within their respective jurisdictions:

(a)(1) Committee on Agriculture, Nutrition, and Forestry, to which committee shall be referred all proposed legislation, messages, petitions, memorials, and other matters relating primarily to the following subjects:

1. Agricultural economics and research.
2. Agricultural extension services and experiment stations.
3. Agricultural production, marketing, and stabilization of prices.
4. Agriculture and agricultural commodities.
5. Animal industry and diseases.

[1] The Standing Rules of Conducting Business in the United States Senate were extensively revised by S. Res. 274, November 14, 1979. The general revision of the rules set forth in S. Res. 274 was somewhat altered in form by the adoption of S. Res. 389 on March 25, 1980, to consolidate and renumber certain standing rules of the Senate.

6. Crop insurance and soil conservation.
7. Farm credit and farm security.
8. Food from fresh waters.
9. Food stamp programs.
10. Forestry, and forest reserves and wilderness areas other than those created from the public domain.
11. Home economics.
12. Human nutrition.
13. Inspection of livestock, meat, and agricultural products.
14. Pests and pesticides.
15. Plant industry, soils, and agricultural engineering.
16. Rural development, rural electrification, and watersheds.
17. School nutrition programs.

(2) Such committee shall also study and review, on a comprehensive basis, matters relating to food, nutrition, and hunger, both in the United States and in foreign countries, and rural affairs, and report thereon from time to time.

* * * * *

2. Except as otherwise provided by paragraph 4 of this rule, each of the following standing committees shall consist of the number of Senators set forth in the following table on the line on which the name of that committee appears:

Committee	Members
Agriculture, Nutrition, and Forestry	18

* * * * *

4. * * *

(b)(1) Each Senator may serve on not more than three subcommittees of each committee (other than the Committee on Appropriations) listed in paragraph 2 of which he is a member.

* * * * *

(e) * * *

(2) No Senator shall serve at any time as chairman of more than one subcommittee of each standing, select, or special committee of the Senate or joint committee of the Congress of which he is a member.

RULE XXVI

COMMITTEE PROCEDURE

1. Each standing committee, including any subcommittee of any such committee, is authorized to hold such hearings, to sit and act at such times and places during the sessions, recesses, and adjourned periods of the Senate, to require by subpena or otherwise the attendance of such witnesses and the production of such correspondence, books, papers, and documents, to take such testimony and to make such expenditures (not in excess of $10,000 for each committee during any Congress) as it deems advisable. Each such committee may make investigations into any matter within its jurisdiction, may report such hearings as may be had by it, and may employ stenographic assistance at a cost not exceeding the amount prescribed by the Committee on Rules and Administration. The expenses of the committee shall be paid from the contingent fund of the Senate upon vouchers approved by the chairman.

2. Each committee shall adopt rules (not inconsistent with the Rules of the Senate) governing the procedure of such committee. The rules of each committee shall be published in the Congressional Record not later than March 1 of each year, except that if any such committee is established on or after February 1 of a year, the rules of that committee during the year of establishment shall be published in the Congressional Record not later than sixty days after such establishment. An amendment to the rules of any such committee shall be published in the Congressional Record not later than thirty days after the adoption of such amendment. If the Congressional Record is not published on the last day of any period referred to above, such period shall be extended until the first day thereafter on which it is published.

3. Each standing committee (except the Committee on Appropriations) shall fix regular weekly, biweekly, or monthly meetings days for the transaction of business before the committee and additional meetings may be called by the chairman as he may deem necessary. If at least three members of any such committee desire that a special meeting of the committee be called by the chairman, those members may file in the offices of the committee their written request to the chairman for that special meeting. Immediately upon the filing of the request, the clerk of the committee shall notify the chairman of the filing of the request. If, within three calendar days after the filing of the request, the chairman does not call the requested special meeting, to be held within seven calendar days after the filing of the request, a majority of the members of the committee may file in the offices of the committee their written notice that a special meeting of the committee will be held, specifying the date and hour of that special meeting. The committee shall meet on that date and hour. Immediately upon the filing of the notice, the clerk of the committee shall notify all members of the committee that such special meeting will be held and inform them of its date and hour. If the chairman of any such committee is not present at any regular, additional, or special meeting of the committee, the ranking member of the majority party on the committee who is present shall preside at that meeting

4. (a) Each committee (except the Committee on Appropriations and the Committee on the Budget) shall make public announcement of the date, place, and subject matter of any hearing to be conducted by the committee on any measure or matter at least one week before the commencement of that hearing unless the committee determines that there is good cause to begin such hearing at an earlier date.

(b) Each committee (except the Committee on Appropriations) shall require each witness who is to appear before the committee in any hearing to file with the clerk of the committee, at least one day before the date of the appearance of that witness, a written statement of his proposed testimony unless the committee chairman and the ranking minority member determine that there is good cause for noncompliance. If so requested by any committee, the staff of the committee shall prepare for the use of the members of the committee before each day of hearing before the committee a digest of the statements which have been so filed by witnesses who are to appear before the committee on that day.

(c) After the conclusion of each day of hearing, if so requested by any committee, the staff shall prepare for the use of the members of the committee a summary of the testimony given before the committee on that day. After approval by the chairman and the ranking minority member of the committee, each such summary may be printed as a part of the committee hearings if such hearings are ordered by the committee to be printed.

(d) Whenever any hearing is conducted by a committee (except the Committee on Appropriations) upon any measure or matter,

the minority on the committee shall be entitled, upon request made by a majority of the minority members to the chairman before the completion of such hearing, to call witnesses selected by the minority to testify with respect to the measure or matter during at least one day of hearing thereon.

5. (a) Notwithstanding any other provision of the rules, when the Senate is in session, no committee of the Senate or any subcommittee thereof may meet, without special leave, after the conclusion of the first two hours after the meeting of the Senate commenced and in no case after two o'clock postmeridian unless consent therefor has been obtained from the majority leader and the minority leader (or in the event of the absence of either of such leaders, from his designee). The prohibition contained in the preceding sentence shall not apply to the Committee on Appropriations or the Committee on the Budget. The majority leader or his designee shall announce to the Senate whenever consent has been given under this subparagraph and shall state the time and place of such meeting. The right to make such announcement of consent shall have the same priority as the filing of a cloture motion.

(b) Each meeting of a committee, or any subcommittee thereof, including meetings to conduct hearings, shall be open to the public, except that a meeting or series of meetings by a committee or a subcommittee thereof on the same subject for a period of no more than fourteen calendar days may be closed to the public on a motion made and seconded to go into closed session to discuss only whether the matters enumerated in clauses (1) through (6) would require the meeting to be closed, followed immediately by a record vote in open session by a majority of the members of the committee or subcommittee when it is determined that the matters to be discussed or the testimony to be taken at such meeting or meetings—

(1) will disclose matters necessary to be kept secret in the interests of national defense or the confidential conduct of the foreign relations of the United States;

(2) will relate solely to matters of committee staff personnel or internal staff management or procedure;

(3) will tend to charge an individual with crime or misconduct, to disgrace or injure the professional standing of an individual, or otherwise to expose an individual to public contempt or obloquy, or will represent a clearly unwarranted invasion of the privacy of an individual;

(4) will disclose the identity of any informer or law enforcement agent or will disclose any information relating to the investigation or prosecution of a criminal offense that is required to be kept secret in the interests of effective law enforcement;

(5) will disclose information relating to the trade secrets of financial or commercial information pertaining specifically to a given person if—

(A) an Act of Congress requires the information to be kept confidential by Government officers and employees; or

(B) the information has been obtained by the Government on a confidential basis, other than through an application by such person for a specific Government financial or other benefit, and is required to be kept secret in order to prevent undue injury to the competitive position of such person; or

(6) may divulge matters required to be kept confidential under other provisions of law or Government regulations.

(c) Whenever any hearing conducted by any such committee or subcommittee is open to the public, that hearing may be broadcast by radio or television, or both, under such rules as the committee or subcommittee may adopt.

(d) Whenever disorder arises during a committee meeting that is open to the public, or any demonstration of approval or disapproval is indulged in by any person in attendance at any such meeting, it shall be the duty of the Chair to enforce order on his own initiative and without any point of order being made by a Senator. When the Chair finds it necessary to maintain order, he shall have the power to clear the room, and the committee may act in closed session for so long as there is doubt of the assurance of order.

(e) Each committee shall prepare and keep a complete transcript or electronic recording adequate to fully record the proceeding of each meeting or conference whether or not such meeting or any part thereof is closed under this paragraph, unless a majority of its members vote to forego such a record.

6. Morning meetings of committes and subcommittees thereof shall be scheduled for one or both of the periods prescribed in this paragraph. The first period shall end at eleven o'clock antemeridian. The second period shall begin at eleven o'clock antemeridian and end at two o'clock postmeridian.

7. (a)(1) Except as provided in this paragraph, each committee, and each subcommittee thereof is authorized to fix the number of its members (but not less than one-third of its entire membership) who shall constitute a quorum thereof for the transaction of such business as may be considered by said committee, except that no measure or matter or recommendation shall be reported from any committee unless a majority of the committee were physically present.

(2) Each such committee, or subcommittee, is authorized to fix a lesser number than one-third of its entire membership who shall constitute a quorum thereof for the purpose of taking sworn testimony.

(3) The vote of any committee to report a measure or matter shall require the concurrence of a majority of the members of the committee who are present. No vote of any member of any committee to report a measure or matter may be cast by proxy if rules adopted by such committee forbid the casting of votes for that purpose by proxy; however, proxies may not be voted when the absent committee member has not been informed of the matter on which he is being recorded and has not affirmatively requested that he be so recorded. Action by any committee in reporting any measure or matter in accordance with the requirements of this subparagraph shall constitute the ratification by the committee of all action theretofore taken by the committee with respect to that measure or matter, including votes taken upon the measure or matter or any amendment thereto, and no point of order shall lie with respect to that measure or matter on the ground that such previous action with respect thereto by such committee was not taken in compliance with such requirements.

(b) Each committee (except the Committee on Appropriations) shall keep a complete record of all committee action. Such record shall include a record of the votes on any question on which a record vote is demanded. The results of rollcall votes taken in any meeting of any committee upon any measure, or any amendment thereto, shall be announced in the committee report on that measure unless previously announced by the committee, and such announcement shall include a tabulation of the votes cast in favor of and the votes cast in opposition to each such measure and amendment by each member of the committee who was present at that meeting.

11-016 (Legis. Cal., Final Edition) O - 83 -- 2

(c) Whenever any committee by rollcall vote reports any measure or matter, the report of the committee upon such measure or matter shall include a tabulation of the votes cast by each member of the committee in favor of and in opposition to such measure or matter. Nothing contained in this subparagraph shall abrogate the power of any committee to adopt rules—

(1) providing for proxy voting on all matters other than the reporting of a measure or matter, or

(2) providing in accordance with subparagraph (a) for a lesser number as a quorum for any action other than the reporting of a measure or matter.

8. (a) In order to assist the Senate in—

(1) its analysis, appraisal, and evaluation of the application, administration, and execution of the laws enacted by the Congress, and

(2) its formulation, consideration, and enactment of such modifications of or changes in those laws, and of such additional legislation, as may be necessary or appropriate.

each standing committee (except the Committees on Appropriations and the Budget) shall review and study, on a continuing basis the application, administration, and execution of those laws, or parts of laws, the subject matter of which is within the legislative jurisdiction of that committee. Such committees may carry out the required analysis, appraisal, and evaluation themselves, or by contract, or may require a Government agency to do so and furnish a report thereon to the Senate. Such committees may rely on such techniques as pilot testing, analysis of costs in comparison with benefits, or provision for evaluation after a defined period of time.

(b) In each odd-numbered year, each such committee shall submit, not later than March 31, to the Senate, a report on the activities of that committee under this paragraph during the Congress ending at noon on January 3 of such year.

9. Each committee which requires authorization for the expenditure of funds in excess of the amount specified in paragraph 1 of this rule shall offer one annual authorization resolution to procure such authorization. Each such annual authorization resolution shall include a specification of the amount of all such funds sought by such committee. The annual authorization resolution of any committee shall be offered not later than January 31 of that year, except that, whenever the designation of members of committees occurs during the first session of any Congress at a date later than January 20, such resolution may be offered at any time within thirty days after the date on which the members of such committees are designated. After the date on which an annual authorization resolution has been offered by any committee in any year, such committee in that year may procure authorization for additional expenditures only by offering a supplemental authorization resolution. Each such supplemental authorization resolution shall include a specification of the amount of all supplemental funds sought by that committee. Each such supplemental authorization resolution shall amend the annual authorization resolution of such committee for that year unless the committee offered no annual authorization resolution for that year, in which case the committee's supplemental authorization resolution shall not be an amendment to any other resolution and any subsequent supplemental authorization resolution of such committee for the same year shall amend the first such resolution offered by the committee for that year. Each such supplemental resolution reported by such committee shall be accompanied by a report to the Senate specifying with particularity the purpose for which such authorization is sought and the reason why such authorization could not have been sought at the time of, or within the period provided for, the submission by such committee of an annual authorization resolution for that year. This paragraph shall not apply to any resolution requesting funds in addition to the amount specified in paragraph 1 of this rule and which are to be expended only for the same purposes for which such amount may be expended. This subparagraph does not apply to the Committee on Appropriations.

10. (a) All committee hearings, records, data, charts, and files shall be kept separate and distinct from the congressional office records of the Member serving as chairman of the committee; and such records shall be the property of the Senate and all members of the committee and the Senate shall have access to such records. Each committee is authorized to have printed and bound such testimony and other data presented at hearings held by the committee.

(b) It shall be the duty of the chairman of each committee to report or cause to be reported promptly to the Senate any measure approved by his committee and to take or cause to be taken necessary steps to bring the matter to a vote. In any event, the report of any committee upon a measure which has been approved by the committee shall be filed within seven calendar days (exclusive of days on which the Senate is not in session) after the day on which there has been filed with the clerk of the committee a written and signed request of a majority of the committee for the reporting of that measure. Upon the filing of any such request, the clerk of the committee shall transmit immediately to the chairman of the committee notice of the filing of that request. This subparagraph does not apply to the Committee on Appropriations.

(c) If at the time of approval of a measure or matter by any committee (except for the Committee on Appropriations), any member of the committee gives notice of intention to file supplemental, minority, or additional views, that member shall be entitled to not less than three calendar days in which to file such views, in writing, with the clerk of the committee. All such views so filed by one or more members of the committee shall be included within, and shall be a part of, the report filed by the committee with respect to that measure or matter. The report of the committee upon that measure or matter shall be printed in a single volume which—

(1) shall include all supplemental, minority, or additional views which have been submitted by the time of the filing of the report, and

(2) shall bear upon its cover a recital that supplemental, minority, or additional views are included as part of the report.

This subparagraph does not preclude—

(A) the immediate filing and printing of a committee report unless timely request for the opportunity to file supplemental, minority, or additional views has been made as provided by this subparagraph; or

(B) the filing by any such committee of any supplemental report upon any measure or matter which may be required for the correction of any technical error in a previous report made by that committee upon that measure or matter.

11. (a) The report accompanying each bill or joint resolution of a public character reported by any committee (except the Committee on Appropriations and the Committee on the Budget) shall contain—

(1) an estimate, made by such committee, of the costs which would be incurred in carrying out such bill or joint resolution in the fiscal year in which it is reported and in each of the five fiscal years following such fiscal year (or for the authorized duration of any program authorized by such bill or joint resolution, if less than five years), except that, in the case of measures affecting the revenues, such reports

shall require only an estimate of the gain or loss in revenues for a one-year period; and

(2) a comparison of the estimate of costs described in subparagraph (1) made by such committee with any estimate of costs made by any Federal agency; or

(3) in lieu of such estimate or comparison, or both, a statement of the reasons why compliance by the committee with the requirements of subparagraph (1) or (2), or both, is impracticable.

(b) Each such report (except those by the Committee on Appropriations) shall also contain—

(1) an evaluation, made by such committee, of the regulatory impact which would be incurred in carrying out the bill or joint resolution. The evaluation shall include (A) an estimate of the numbers of individuals and businesses who would be regulated and a determination of the groups and classes of such individuals and businesses, (B) a determination of the economic impact of such regulation on the individuals, consumers, and businesses affected, (C) a determination of the impact on the personal privacy of the individuals affected, and (D) a determination of the amount of additional paperwork that will result from the regulations to be promulgated pursuant to the bill or joint resolution, which determination may include, but need not be limited to, estimates of the amount of time and financial costs required of affected parties, showing whether the effects of the bill or joint resolution could be substantial, as well as reasonable estimates of the recordkeeping requirements that may be associated with the bill or joint resolution; or

(2) in lieu of such evaluation, a statement of the reasons why compliance by the committee with the requirements of clause (1) is impracticable.

(c) It shall not be in order for the Senate to consider any such bill or joint resolution if the report of the committee on such bill or joint resolution does not comply with the provisions of subparagraphs (a) and (b) on the objection of any Senator.

12. Whenever a committee reports a bill or a joint resolution repealing or amending any statute or part thereof it shall make a report thereon and shall include in such report or in an accompanying document (to be prepared by the staff of such committee) (a) the text of the statute or part thereof which is proposed to be repealed; and (b) a comparative print of that part of the bill or joint resolution making the amendment and of the statute or part thereof proposed to be amended, showing by stricken-through type and italics, parallel columns, or other appropriate typographical devices the omissions and insertions which would be made by the bill or joint resolution if enacted in the form recommended by the committee. This paragraph shall not apply to any such report in which it is stated that, in the opinion of the committee, it is necessary to dispense with the requirements of this subsection to expedite the business of the Senate.

13. (a) Each committee (except the Committee on Appropriations) which has legislative jurisdiction shall, in its consideration of all bills and joint resolutions of a public character within its jurisdiction, endeavor to insure that—

(1) all continuing programs of the Federal Government and of the government of the District of Columbia, within the jurisdiction of such committee or joint committee, are designed; and

(2) all continuing activities of Federal agencies, within the jurisdiction of such committee or joint committee, are carried on;

so that, to the extent consistent with the nature, requirements, and objectives of those programs and activities, appropriations therefor will be made annually.

(b) Each committee (except the Committee on Appropriations) shall with respect to any continuing program within its jurisdiction for which appropriations are not made annually, review such program, from time to time, in order to ascertain whether such program could be modified so that appropriations therefor would be made annually.

RULES OF THE COMMITTEE ON AGRICULTURE, NUTRITION, AND FORESTRY

1. Regular meetings shall be held on the first and third Wednesday of each month when Congress is in session.

2. Voting by proxy authorized in writing for specific bills or subjects shall be allowed whenever a majority of the committee is actually present.

3. To assure the equitable assignment of members to subcommittees, no member of the committee will receive assignment to a second subcommittee until, in order of seniority, all members of the committee have chosen assignments to one subcommittee, and no member shall receive assignment to a third subcommittee until, in order of seniority, all members have chosen assignments to two subcommittees.

4. Six members shall constitute a quorum for the purpose of transacting committee business: *Provided,* That for the purpose of receiving sworn testimony, a quorum of the committee and each subcommittee thereof shall consist of one member.[1]

[1] For further restrictions with respect to proxies and quorums in the reporting of measures and recommendations, see Rule XXVI, paragraph 7(c), of the Standing Rules for Conducting Business in the United States Senate.

EXPLANATORY NOTES

1.—S. 884, the Agriculture and Food Act of 1981, was reported to the Senate on May 27, 1981. S. 884 authorizes a 4-year extension of farm commodity programs, the Public Law 480 program, and the research, extension, and teaching programs in food and agricultural sciences. The bill also included two new titles dealing with agricultural exports and resource conservation.

During the markup, the Committee considered the following bills: S. 480, S. 704, S. 712, S. 796, S. 884, S. 902, S. 943, S. 967, S. 968, S. 994, S. 997, and S. 1037. S. 884 was chosen as the markup vehicle, and provisions from the above listed bills were incorporated in S. 884 as reported to the Senate. (See S. Rept. 97-126.)

Senate consideration of S. 884 began on September 14 and continued until passage on September 18. During Senate floor consideration and the conference, provisions of the following bills were incorporated in S. 884: S. 1237, S. 1295, S. 1456, S. 1557, S. 1560, S. 1616, and H.R. 1309.

The House and Senate met in conference beginning November 2 and completed deliberation on December 8. The conference report was passed in the Senate (S. Rept. 97-290) on December 10 and in the House (H. Rept. 97-377) on December 16. The President signed S. 884, the Agriculture and Food Act of 1981, on December 22, 1981 (Public Law 97-98).

2.—S. 1007, the Food Stamp and Commodity Distribution Amendments of 1981, was reported to the Senate on June 2, 1981. The bill would increase the fiscal year 1981 authorization for appropriations; authorize appropriations through fiscal year 1985; and make substantive changes in the Food Stamp Act of 1977.

Changes were made in eligibility requirements, and in the operation of the program with respect to benefits and penalties for abuse of the program. The bill also extends existing rules allowing certain States to "cash out" food stamp benefits for SSI recipients, and lowers food stamp income eligibility limits in Puerto Rico with conversion to a block grant program on April 1, 1982.

During the markup, the Committee considered the following bills: S. 86, S. 293, S. 480, S. 495, S. 994, S. 997, S. 1006, S. 1007, S. 1016, and S. 1113. S. 1007 was chosen as the markup vehicle, and provisions from the above-listed bills were incorporated in S. 1007 as reported to the Senate. (See S. Rept. 97-128.)

S. 1007 passed the Senate on June 10, 1981.

The cost saving provisions of S. 1007 were incorporated in the legislative proposals the Committee sent to the Committee on the Budget to achieve reductions in Federal spending levels required by the First Concurrent Budget Resolution for Fiscal Year 1982. Similar provisions effecting cost savings in the food stamp program were enacted as part of the Omnibus Budget Reconciliation Act of 1981. (See Note 3.)

Public Law 97-18 (approved June 30, 1981) increased the fiscal year 1981 authorization for appropriations and continued, through August 1, 1981, the "cash-out" of food stamps for SSI recipients. Section 2342 of the Omnibus Budget Reconciliation Act of 1981 continues this authority on a permanent basis.

On May 19, 1981, the House Committee on Agriculture reported H.R. 3603, the Food and Agriculture Act of 1981, which called for the reauthorization of both expiring farm programs and the food stamp program. On October 22, 1981, the House passed S. 884, the Agriculture and Food Act of 1981, after striking its text and inserting in lieu thereof the text of H.R. 3603. The House and Senate met in conference from November 2 to December 8. Although S. 1007 was not in conference, provisions therein were noted during discussion of the food stamp title. Among other substantive changes, the conferees agreed to a 1-year extension of the food stamp program. The President signed S. 884, the Agriculture and Food Act of 1981, on Dec. 22, 1981 (Public Law 97-98). Title XIII of Public Law 97-98 contains the Food Stamp and Commodity Distribution Amendments of 1981.

3.—On May 21, 1981, Congress completed action on H. Con. Res. 115, the First Concurrent Budget Resolution for Fiscal Year 1982. That resolution contained reconciliation instructions to the Committee on Agriculture, Nutrition, and Forestry that required reductions in direct spending levels of $2.5 billion and reductions in program authorization levels under the Committee's jurisdiction of $11.7 billion.

The Committee met in markup and considered legislative proposals within its jurisdiction to achieve the spending reductions. The following bills were considered: S. 944, S. 945, S. 946, S. 947, S. 948, S. 949, S. 950, S. 1007, S. 1219, and S. 1254.

Provisions of these bills, as amended, were sent to the Committee on the Budget for inclusion in the bill to be reported to the Senate by the Budget Committee to comply with the Federal spending levels imposed by the passage of the First Concurrent Budget Resolution.

On June 17, 1981, S. 1377 was reported to the Senate by the Budget Committee with title I containing the recommendations of the Committee on Agriculture, Nutrition, and Forestry. (See S. Rept. 97-139.) On June 25, 1981, S. 1377 passed the Senate.

On June 26, 1981, the House passed H.R. 3982, the companion measure to S. 1377, and on July 13, 1981, H.R. 3982 passed the Senate, after being amended to substitute the provisions of S. 1377. The Senate requested a conference, and Agriculture Committee conferees were appointed for provisions in the Act under its jurisdiction: agriculture, forestry, energy, food stamps, and child nutrition. The conferees reached agreement on a substitute bill, and on July 30, 1981, the conference report was agreed to by both Houses of Congress (H. Rept. 97-208).

Savings approved by the conferees included: reductions in the price support of milk; changes in the Farmers Home and Rural Electrification loan programs with continued REA access to the Federal Financing Bank; recovery of Federal inspection costs for cotton, tobacco, grain, and naval stores; spending reductions in the child nutrition and food stamp programs; and reductions in the authorization levels for the Public Law 480 program (Food for Peace).

The President signed H.R. 3982, the Omnibus Budget Reconciliation Act of 1981, on August 13, 1981. (Public Law 97-35.)

4.—S. 1322 was reported to the Senate on Oct. 28, 1981, with an amendment. Subsequently, when the Senate considered this legislation, an amendment by Senator Baker was offered for Senators Helms and Huddleston extending the delay in making any adjustment in the price support level for milk, and extending the time for conducting the referenda with respect to the national marketing quotas for wheat and upland cotton.

5.—S. 1196, as passed by the Senate, contained in title VI amendments to Public Law 480. Similar amendments were subsequently approved by the House as title IV. In the Senate, the Committee on Agriculture, Nutrition, and Forestry has jurisdiction over the Food for Peace program (Public Law 480), and Senators from that committee served as the Senate conferees on that part of S. 1196.

6.—S. 2227 was jointly referred to Committees on Agriculture, Nutrition, and Forestry and Foreign Relations with instructions that the Committee on Foreign Relations consider all the bill except section 108(b) and the Committee on Agriculture, Nutrition, and Forestry consider only section 108(b). Section 108(b) would designate the People's Republic of China as a "friendly" nation, thereby making it eligible to participate in the Food for Peace Program, P.L. 480. The Committee on Agriculture disapproved section 108(b) on May 5, 1982, but agreed to include report language giving the President the discretion to designate the People's Republic of China as a friendly nation provided that Congress be notified 60 days in advance of such declaration. This action was reported to the Senate Committee on Foreign Relations for inclusion with the report to accompany S. 2227.

On May 20, 1982, the Committee on Foreign Relations ordered favorably reported an original bill, S. 2608, in lieu of S. 2227. The views of the Committee on Agriculture, Nutrition, and Forestry on the President's discretion to designate the People's Republic of China as a friendly nation under Public Law 480 are printed in the report of the Committee on Foreign Relations on S. 2608. (See S. Rept. 97-464.)

7.—S. Res. 218, as agreed to by the Senate, and H. Con. Res. 216, as agreed to by the House, relate to the retention of nutritional goals in the school lunch program and are identical in language (except that the Senate resolution expresses the sense of the Senate and the House resolution expresses the sense of Congress).

8.—On June 23, 1982, Congress completed action on S. Con. Res. 92, the First Concurrent Resolution of fiscal year 1983. That resolution contained reconciliation instructions to the Committee on Agriculture, Nutrition, and Forestry that required reductions in spending in budget authority and outlays for the fiscal years 1983, 1984, and 1985 as follows: 1983, $1,091 million; 1984, $1,410 million; and 1985, $1,739 million.

The Committee met in markup and considered legislative proposals within its jurisdiction to achieve the spending reductions. The following bills were considered: S. 2352, S. 2392, S. 2415, S. 2480, S. 2493, S. 2522, S. 2533, S. 2587, S. 2661, S. 2665, S. 2716, and S. 2722.

Certain provisions of these bills, as amended, and other legislative language were sent to the Committee on the Budget for inclusion in the bill to be reported to the Senate by the Senate Budget Committee to comply with the Federal spending levels imposed by the passage of the First Concurrent Budget Resolution.

On July 26, 1982, S. 2774 was reported to the Senate by the Budget Committee with title I containing the recommendations of the Committee on Agriculture, Nutrition, and Forestry (see S. Rept. 97-504). On August 5, 1982, S. 2774 passed the Senate.

On August 10, 1982, H.R. 6892 (see H. Rept. 97-687) passed the House, with amendments. H.R. 6892 was the companion measure to title I of S. 2774. Also, on August 10, 1982, the text of H.R. 6892, as passed by the House, was incorporated in H.R. 6955 as title I of that measure, and H.R. 6955 was passed by the House.

The Senate requested a conference and House and Senate conferees were appointed for matters in the bill pertaining to agriculture and food stamps.

The conferees reached agreement, and on Aug. 18, 1982, the conference report was accepted by both Houses of Congress. The President signed H.R. 6955, the Omnibus Budget Reconciliation Act of 1982 on Sept. 8, 1982 (Public Law 97-253).

9.—In passing H.R. 2035, the Senate incorporated as an amendment the provisions of S. 505, dealing with the improvement of the quality of table grapes marketed in the United States.

10.—In passing H.R. 6164, the Senate incorporated as an amendment the provisions of S. 2787, providing for an additional Assistant Secretary of Agriculture to be appointed by the President.

11.—Provisions similar to those contained in S. 2960(i) requiring FmHA farm loan deferrals in certain circumstances and (ii) extending and providing funds for the FmHA economic emergency loan program were adopted by the Senate as amendments to H.R. 7072, the Agriculture, Rural Development, and Related Agencies Apropriation Act, 1983. H.R. 7072 was passed by the Senate on September 28, 1982. The committee of conference on H.R. 7072 revised the Senate language on (i) loan deferrals to restate existing law (which provides that the Secretary of Agriculture has authority to defer payment of principal and interest under certain conditions) and (ii) the economic emergency loan program to provide for a $600 million guaranteed loan program for fiscal year 1983. The President approved H.R. 7072 on December 18, 1982 (P.L. 97-370).
